

# Intuition

## Advantages

- Guides us with quick decisions
- Reduces stress= don't have to think too much
- Faster decisions

## Disadvantages

- Unreliable= may overlook small, major details in a situation
- Overlook the accuracy of what we know
- Not reproducible
- Unable to make high precision, long term, logic based decisions
- Based on previous knowledge- benefits of learning what happens is only viable if the same situation is encountered again
- Biased= closed-mindedness

## Implications

- Used to make quick decisions with varying levels of importance
- decisions and judgements in daily life
- Helps avoid dangerous situations (survival)
